Dutch Innovation Ecosystem

13 regions of innovation

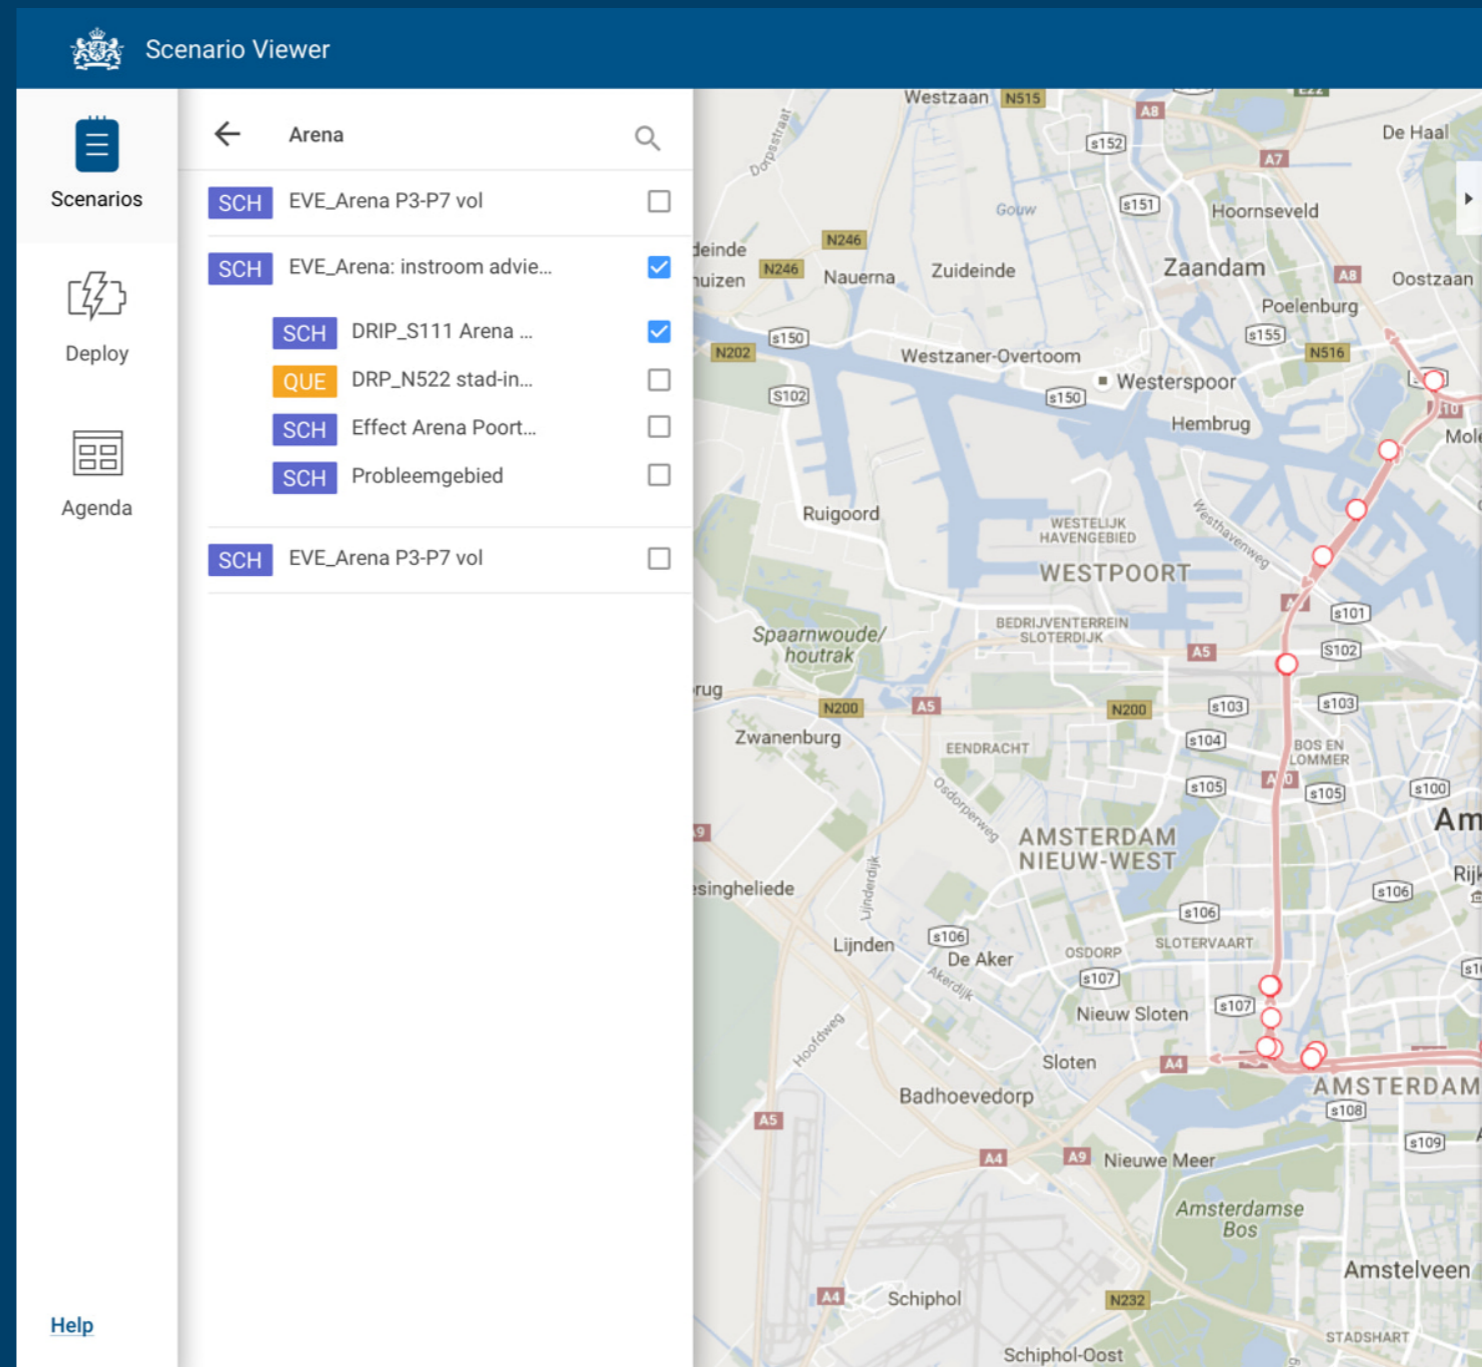

On a city level

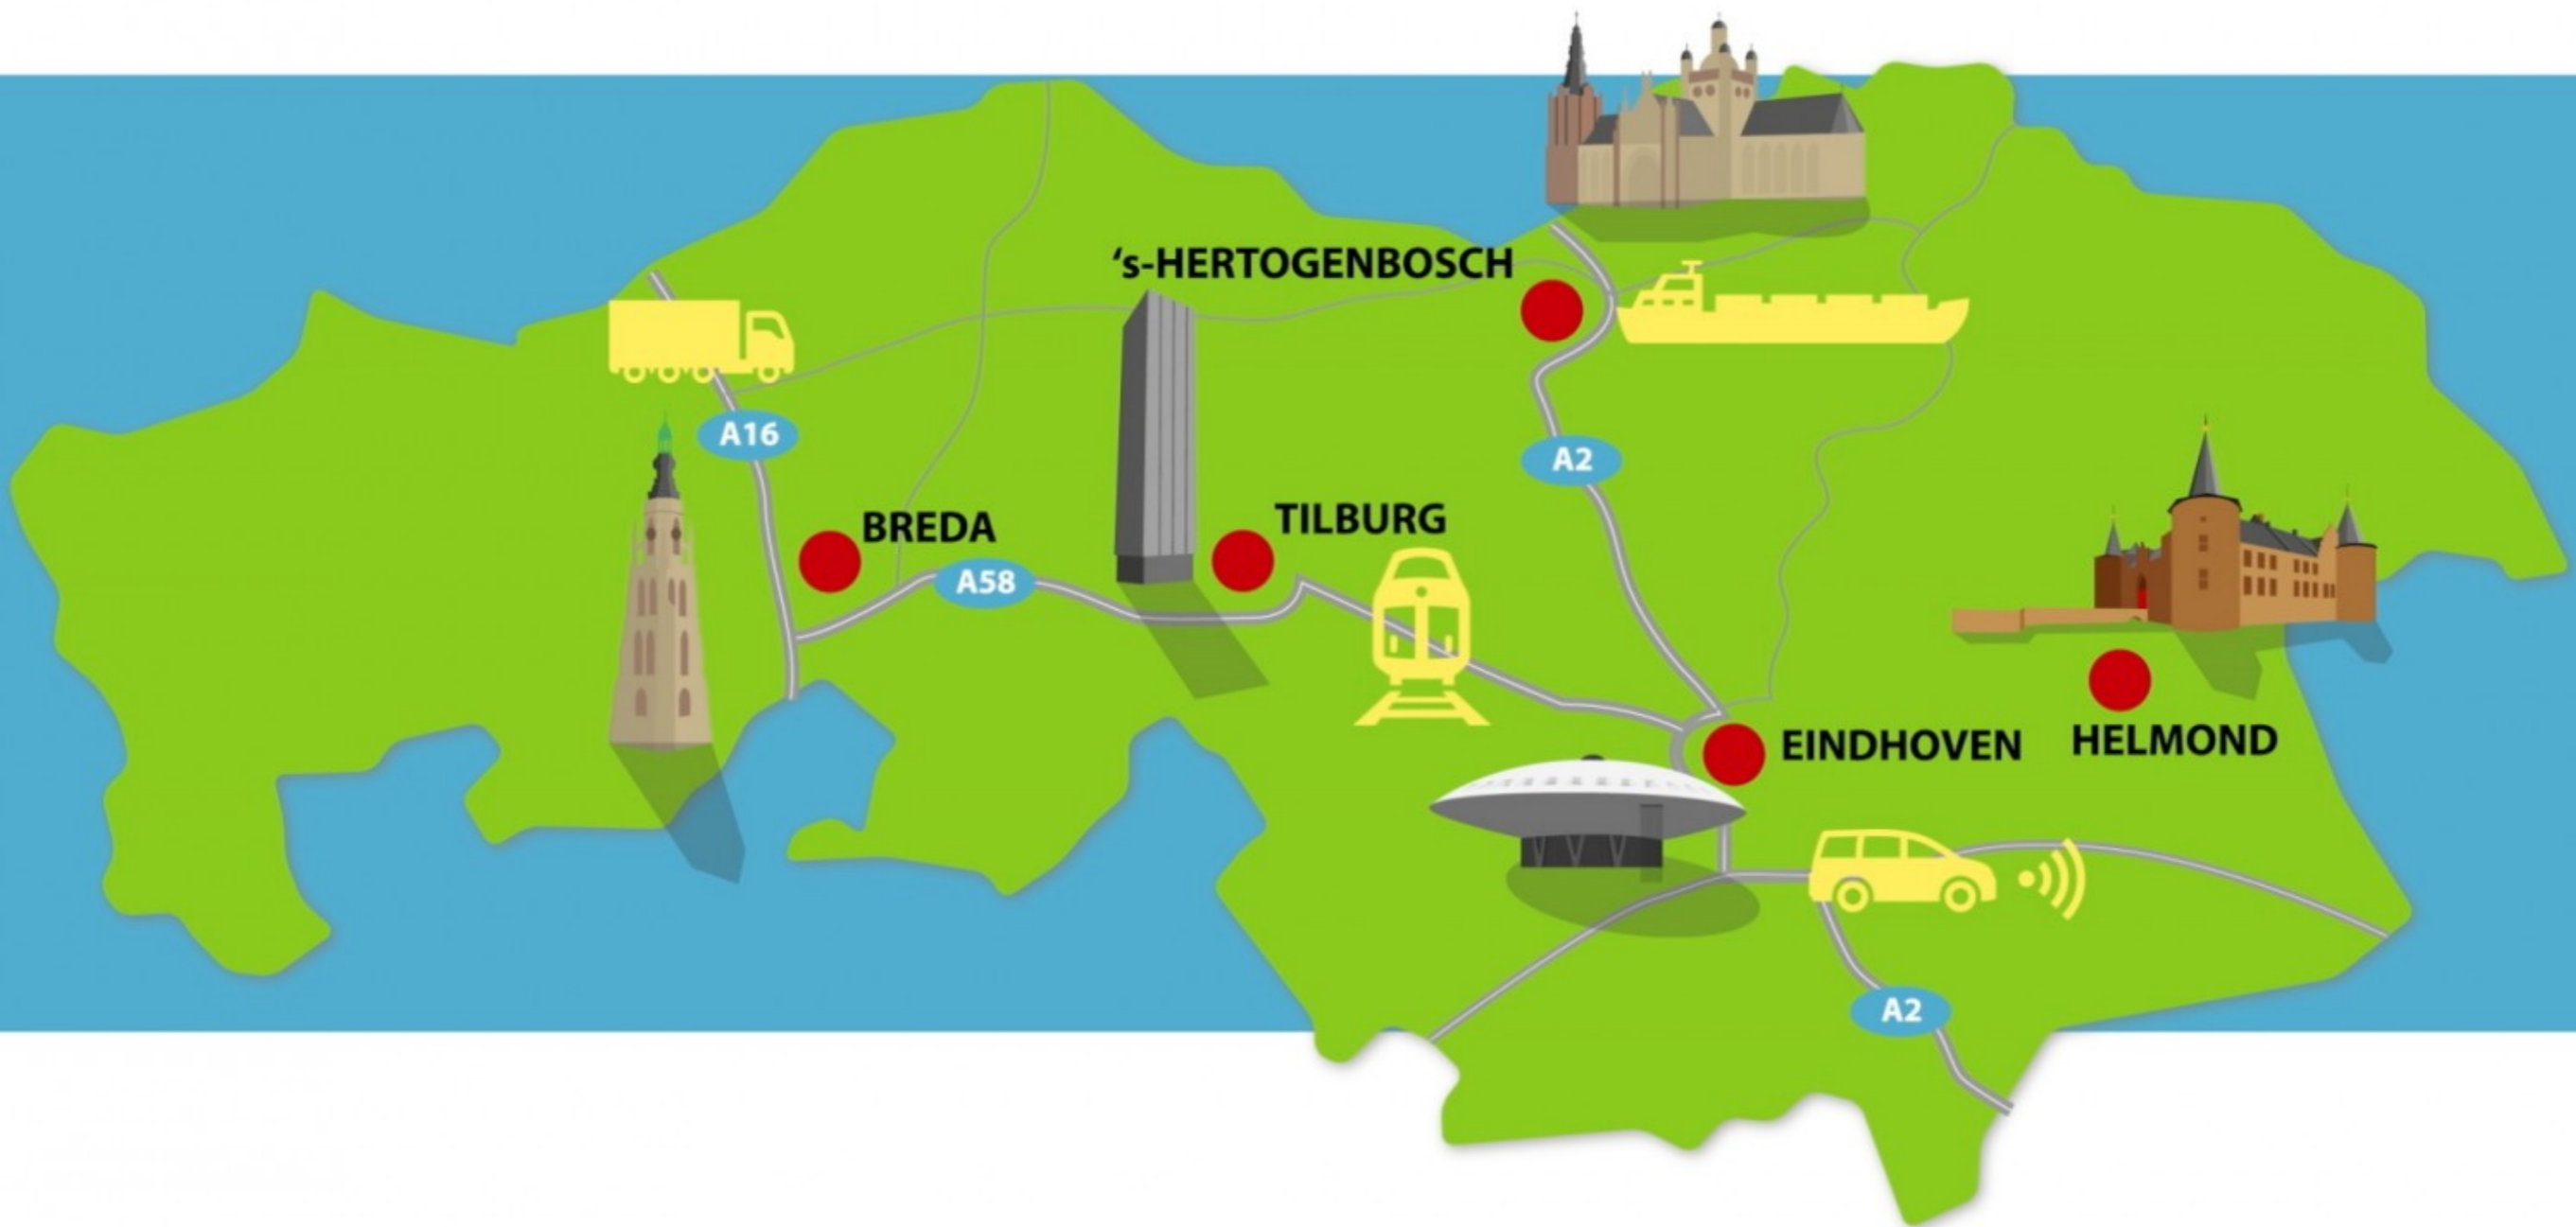

Rijkswaterstaat (Dutch Ministry of Infrastructure)

Moqod has worked for Rijkswaterstaat (Dutch Ministry of Transport and Environment) on different projects. One of the projects is about the digitalization of so-called Scenario's or Response Plans.

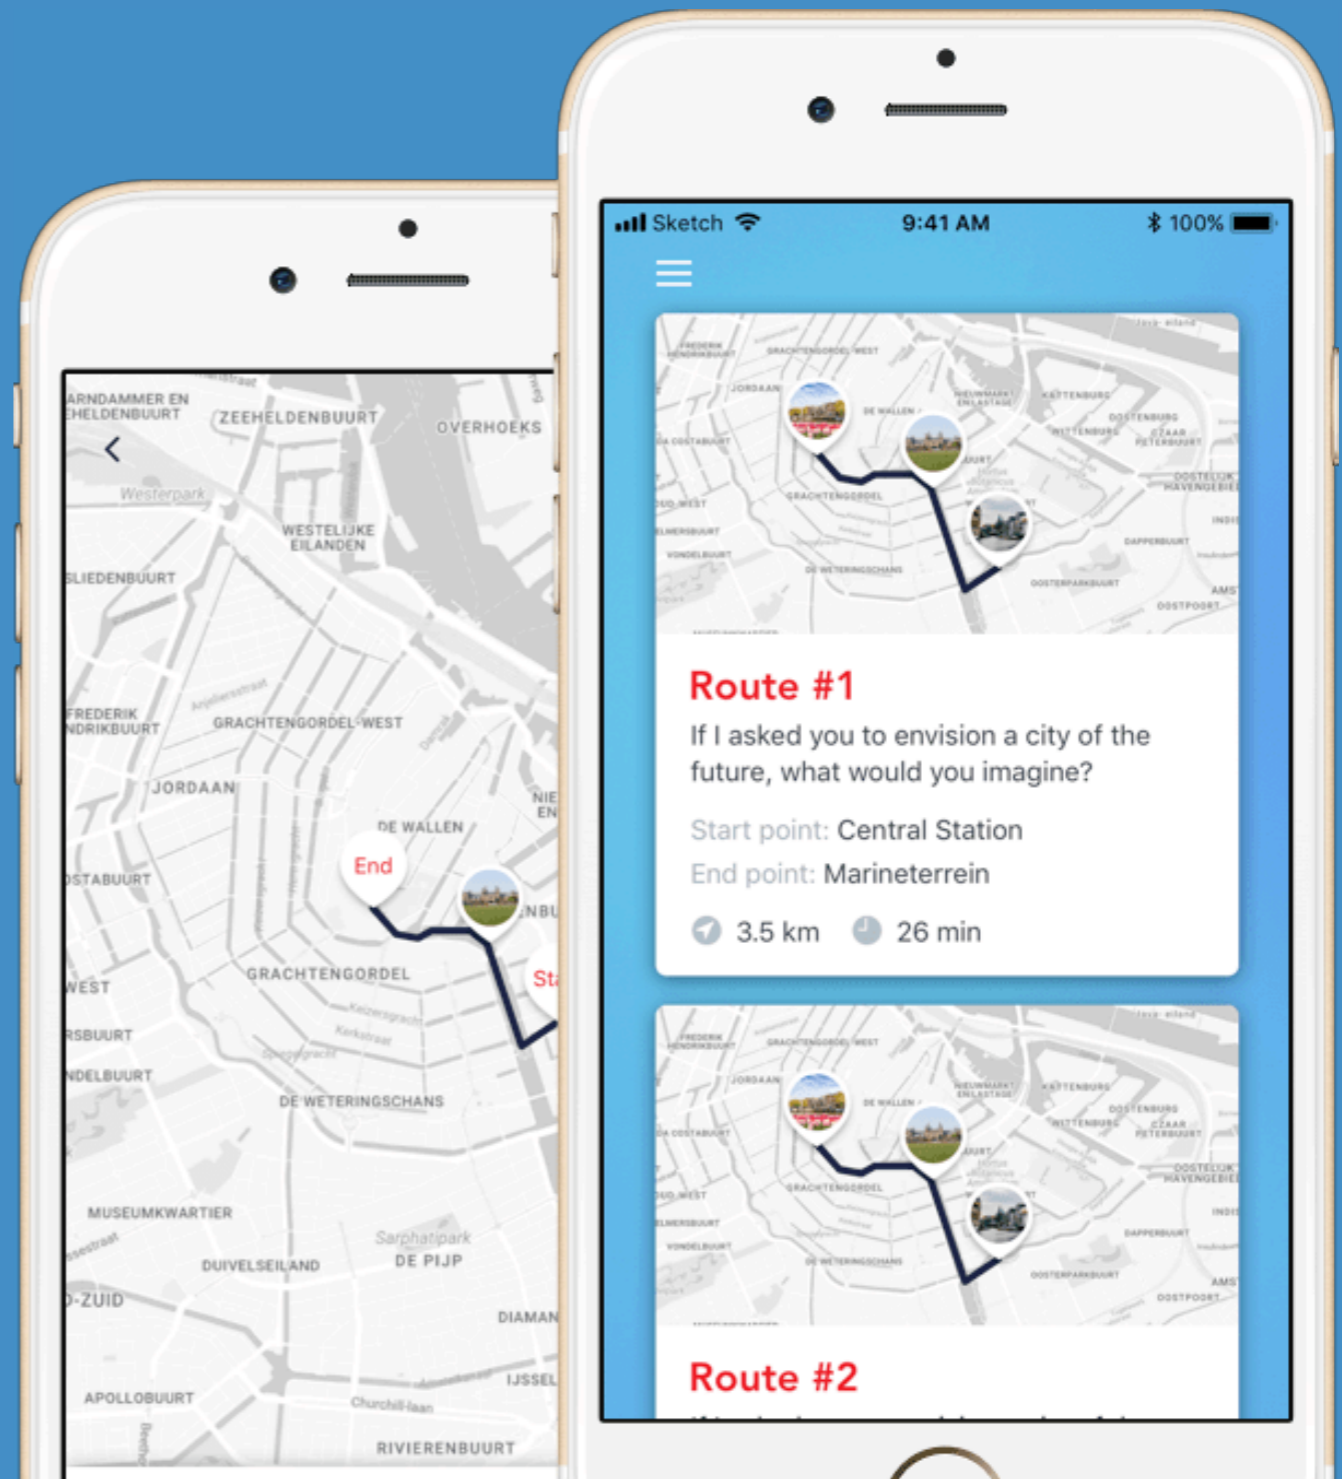

Province of Noord Brabant

Smart City Amsterdam

A project developed for Amsterdam Smart City initiative which is a part of Municipality of Amsterdam.

Amsterdam Smart City is a platform for urban innovation and sustainability. It attracts hundreds of innovation tourists to Amsterdam who come there to learn and export the urban technologies.

What really matters

1. Sustainability
2. Jobs
3. Value for the Dutch society
